

Jg90z Wastemaster Wheeled Excavator Machine Grapple Bucket CE

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: JingGong
- Certification: ISO9001:2008
- Model Number: JG90Z
- Minimum Order Quantity: 1 Set
- Price: US \$30,000.00/ 1-2 Pieces US \$29,000.00 /3+ Pieces
- Packaging Details: Nude Packing
- Payment Terms: T/T
- Supply Ability: 3000sets/Year

Product Specification

- Color: Orange/ Yellow
- Application Field: Agriculture, Forestry
- Boom Length: 3680mm
- Origin: China
- Arm Length: 2000mm
- Certification: ISO9001:2008
- Highlight: **precision used excavator machine, Jg90z Wastemaster Wheeled Excavator Machine**

Product Description

Product Description

CE Certification Jg90z Wastemaster Wheeled Excavator Machine Grapple Bucket for Waste Recycling

JG90Z is one of the most popular grapple wheel excavators of our company. As early as 2009, we had started our research and design of it. After years of careful innovation and trials, this excavator now shows excellent working efficiency and stable performance, contributing to a wide application in China and Southeast Asia.

The operator can control the rotation speed, and can rotate freely 360 degrees clockwise and counterclockwise. The grab has a 360° rotation angle, realizing a significant decrease in loading and unloading time and cost of woods, sugarcanes or other similar materials.

In addition to this, it also provides a high degree of security and safety and brings abundant social and economic benefits to clients.

The interior of the cab is equipped with joysticks, electrical switches, monitoring panels, air conditioners and radios, etc. The driver's seat can be adjusted according to the driver's requirements. The use of strong environmentally friendly glass has the characteristics of high strength, UV protection and good sealing performance. The driver's cab with super wide field of view ensures good visual effects.

SPECIFICATIONS

SPECIFICATIONS		
RANGE OF OPERATION	Boom Length	3475mm
	Arm Length	1850mm
	Max Radius Of Capture	6800mm
	Grab The Biggest Opening Width	1200~1500mm
	Grab The Minimum Opening Width	100~300mm
	Maximum Radius Weight Capacity	0.5~0.6t
	Grapple Rotation Angle	360°
	Max Dumping Height	4700mm
	Back-End Radius Of Gyration	1980mm
DIMENSION	(Length*Width*Height) Travel Position	6000*2100*2850mm
	Wheel Base	2400mm
	Track(Front/Rear)	1660mm/1580mm
	Ground Clearance Of Counterweight	1060mm
	Min Ground Clearance	265mm
TECHNICAL PARAMETERS	Angle Of Rotation	360°
	Machine Weight	6800kg
	Engine Model	YN38GB2/4102
	Rated Power	58.8kw
	Rated Speed	2200r/min
	Hydraulic System Working Pressure	21Mpa
	Hydraulic system flow	110L/min
	Metering gear pump	2*25ml/r
	Grapple Swing Speed	12r/min
	Walking Speed	25km/h
	Grade Climbing Ability	58%/30°
	Tyre model	825.16
	Revolution overdrive pressure	16Mpa
	Full Circle Swinging Time	5.5s
	Fqt Fuel Quantity	≥4L/h
Capacity Of The Fuel Tank	110L	
Hydraulic Tank Capacity	110L
