**Product Description**

**Used China Construction Machine CHOM Xe85da Excavator On Cheap Price**

**Product Description**

XCMG XE85D excavator is a powerful and efficient machine. It features an imported high-horsepower engine that meets National III, Tier 3, and Stage IIIA emission standards, ensuring low noise, low fuel consumption, and low emissions. This optimized engine not only guarantees the reliability of the equipment but also reduces operating costs. In addition, the electronically controlled monobloc pump fuel system adapted to the Chinese market significantly decreases the engine failure rate. Finally, the new generation of low-pressure lossy main valves paired with large-displacement constant-power variable pump power and a newly optimized hydraulic piping system result in lower energy consumption, faster response times, and more precise control of the entire machine. These advanced technical features make the XCMG XE85D excavator stand out for its work efficiency and operational performance. Overall, the XCMG XE85D excavator has gained market recognition for its robust performance, high efficiency, and excellent economy.
