Product Description

Used Sunward Excavator Swe70e Digger Secondhand 7t Construction Machinery

Product Description

The SWE70E excavator from Shanhe Intelligent Equipment Co., Ltd. is a product that combines energy saving and high efficiency. Its customized developed dedicated engine and hydraulic system are perfectly matched, greatly improving work efficiency. This product has the advantages of reducing fuel consumption by 18% and increasing efficiency by 18% in terms of performance characteristics. The new three-pump confluence design of the stick circuit can improve the speed of stick and leveling operations.

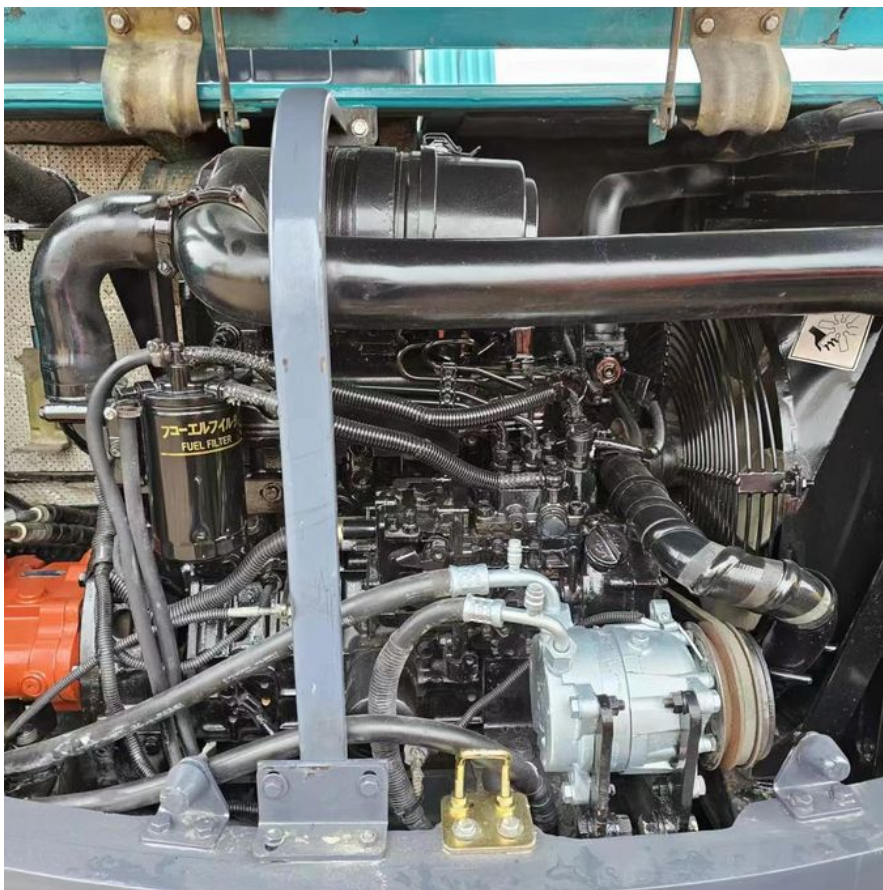

In addition, the cab of the SWE70E excavator adopts a new frame-type design, which meets the European FOPS/TOPS standard and provides a safer and more comfortable working environment for operators. Key components such as travel motor and reduction unit, pinion and swing bearing have been specially strengthened to greatly improve their strength, making them more stable and durable. At the same time, the overall weight of the machine is 6560kg, the bucket capacity is 0.26 cubic meters, and the maximum digging depth reaches 3884mm, which also indicates the excellent engineering capabilities of SWE70E.
