Product Description

Low Price Used Sany Sy115c Hydraulic Crawler Excavator 11.5 Tons China Machiner Product Description

The Sany SY115C excavator is a small-sized hydraulic mechanical excavator with powerful power, flexible control, high energy efficiency and humanized design. It can meet various working conditions, whether it is municipal engineering, light earthwork or heavy stonework and harsh mines, it can easily cope with them, so it is known as the "all-round expert" in small excavators. In addition, it also adopts an environmentally friendly engine that meets the national stage III emission standards, which can automatically adjust the operating mode according to different working conditions, and accurately control in real time. Compared with the previous generation of models, its fuel consumption is lower.

At the same time, the SY115C excavator also uses the original DOMCS dynamic optimization intelligent matching control system to achieve the perfect match between the engine and the main pump, prolonging the life of the components by 30%, making the movements faster and improving the work efficiency by 10%. In terms of exterior design, the new cab with bold lines, thick and full three-dimensional modeling covering parts, combined with more recognizable C10 series new stickers, make the whole machine beautiful, elegant and more distinctive.
